**Description:** A website where users can sign up as an interviewee or interviewer. The interviewee can schedule an interview based on the skills he/she is preparing for the job. Interviewees can access interview questions for preparation, check out multiple interviewer's profiles and proceed with who he/she is interested in. In addition, interviewees can send a request to connect with the interviewer. Interviewee has an interactive way of learning progress with rewards and penalties.

**Core Features**

- **Landing Page:** This page is a dashboard for both the Interviewer as well as Interviewee to see his/her upcoming meetings. It will also show the progress of the interviewee
- **User Profiles:** After signing up either as an interviewer or interviewee, the user's page would dynamically load data based on their roles. Users also get to update their profile along with their profile photo
- **Interview Schedule Page:** An interviewee can select an approximate date when they plan to take an interview and request an interviewer to prepare for the interview.
  - Interviewer will assign/let us know when they are free
  - Interviewee wishes to go with the interviewer and will select the date
  - Interviewee may get a penalty for canceling the interview or a no-show. Rescheduling feature but only 1 day prior. Otherwise again penalty in points for the user
- **Trending Panel:** A trending panel which showcases the questions/problem statements which are most upvoted by interviewees showing up on the profile as well as landing page
- **Admin's Privileges:** An admin can insert questions for preparation and acts as a superuser. Admin has the ability to remove/ban users
- **Interviewer's Profile Page:** The interviewee can view the profile of an interviewer, check out the skills he/she is proficient in. In addition, the interviewee can also check out their Blogs, LinkedIn and social media

**Extra Features**

- **Web RTC:** Video Conference with the interviewer and interviewee
- **On-Demand Interview (AI):** If no dates are available for an instructor, then an AI mock interview can be scheduled with only MCQ (Success Adaptive)
- **In-App Notifications:** Notifications for upcoming events scheduled to both parties.
- **Email Notifications:** Notifications for upcoming events scheduled to both parties via email.
- **Premium Interviewee:** Premium users will have access to premium content from top FAANG companies and exclusive access to FAANG engineers
